Kelly,

The LCP is ready to go. I'm going to have to request more DRST members to support two fronts. Namely I would like to reach out to some of the former strike team

Please advise

Anthony

Anthony,

We need to plan for the Lite MCP to go to Houston. They had 24" rain last night and an additional 15 to 20" is possible through tomorrow. Historic level floods occurring in Houston now. I will start approval process for EPA's MA.
